PROFILE

Recent Master's graduate in Information Technology from Brno University of Technology (FIT) with a specialization in machine learning. Experienced in deep learning, large language models, and data analysis through academic projects and research. Master's thesis explored the integration of LLMs into Cartesian Genetic Programming for symbolic regression. Seeking an entry-level Machine Learning / AI Engineer position where I can apply and further develop my technical skills.

EDUCATION

Brno University of Technology – Faculty of Information Technology <i>Master's degree in Machine Learning</i> Master's thesis: Use of LLMs for Genetic Programming	Brno, Czech Republic 2024 – 2026
Brno University of Technology – Faculty of Information Technology <i>Bachelor's degree in Information Technology</i> Bachelor's thesis: User-friendliness of the City Councils Voting System	Brno, Czech Republic 2020 – 2024
Secondary School of Electrical Engineering Pardubice	Pardubice, Czech Republic 2016 – 2020

EXPERIENCE

Sales and Warehouse Assistant <i>Kordex system s.r.o.</i> - Customer communication and sales support - Order preparation and warehouse operations - Team collaboration and reliable task completion	2022 – 2026
Web Application Tester <i>GeekCoders s.r.o.</i> - Manual testing of web applications - Reporting software defects and verifying fixes	Sep. 2019
IT Specialist Intern <i>IVECO</i> - Software installation and configuration - Hardware maintenance and troubleshooting	May 2019
Logistics Assistant <i>DP WORK</i> - Warehouse logistics and inventory handling - Administrative support and document verification	2018

PROJECTS

Master's Thesis: Use of LLMs for Genetic Programming <i>Python, PyTorch, NumPy, Pandas</i> - Developed a framework integrating Large Language Models into Cartesian Genetic Programming - Designed an LLM-based mutation controller for symbolic regression - Evaluated multiple open-source LLMs (Gemma, Phi, Llama) using llama.cpp	2024 – 2026
Zastupko.cz <i>React, TypeScript, Node.js, Python</i> - Participated in development of a voting system for municipal councils - Developed frontend components using React and TypeScript - Implemented data visualizations in Python	2023 – 2024
Academic Projects <i>Computer Vision, Machine Learning, AI</i> - Developed multiple projects in areas of Computer Vision, Machine Learning and Artificial Intelligence - Available at: github.com/TenebrisCZ	2020 – 2026

INTERNATIONAL EXPERIENCE

Foreign Practice: Computer Graphics Work | *Erasmus+*

Sep. 2019

- Two-week internship in Santiago de Compostela, Spain
- Graphic design and website development using Adobe Photoshop and Illustrator
- English communication and presentation

Erasmus+ Youth Exchange | *The Art of Recycling*

Jun. 2021

- International teamwork with students from several European countries
- English communication and presentation skills

TECHNICAL SKILLS

Programming: Python, C, C++, TypeScript, SQL, Java (basic)

Machine Learning: PyTorch, TensorFlow, Scikit-learn, OpenCV

Large Language Models: Hugging Face, llama.cpp, Prompt Engineering

Data Science: NumPy, Pandas, SciPy, Matplotlib

Databases: PostgreSQL, MongoDB, Pinecone

Tools: Git, GitHub, Docker, Linux

Web: React, Flask, Node.js

SOFT SKILLS

Analytical thinking, Problem solving, Teamwork, Communication, Fast learner, Adaptability

LANGUAGES

Czech: Native

English: B2

ADDITIONAL INFORMATION

Driving Licence – Category B
